

CPC Report 02/11/18

CPC has had an active month! Our first meeting was a success, we had 9 attendee's including myself. We are meeting again on 03/10/18 at 12:30 in the Hutchinson Room at the library and anyone in AA is invited to join. We will be meeting with the PI committee at the March meeting. CPC agenda for the March will be creating clergy and health care "kits" for AA members to take.

I have been working with Deena from the Emerald Valley Intergroup, they have given us permission to use their drop box full of templates and information. EVI has a very established CPC/PI group with endless amounts of information, very grateful for them to share this with our district!

CPC got 100 clergy packets out to local churches in Redmond, Warm Springs & Terrebonne, waiting patiently to see if we get any responses. The committee has decided to move away from mailings for a more cost efficient way to reach people. I hope to bring "kits" next month to the meeting; these would be for AA member to distribute to their church or health care professionals. You don't need to be part of CPC to distribute the kits, if you are interested let me know. The EVI group finds this to be more efficient and they seem to get more responses from personal deliveries than mailings.
