

District 5 Corrections Committee April 8, 2018 Report

Meet with Sheriff's Department Programs Director to discuss issues with the Ride to Recovery program such as his day off, handling weekend requests, Work Release facility, and varied first meeting times on the weekend. Then revised the ride program to address the issues discussed. As this made the procedure a little more complicated, made small slips of paper in English and Spanish to give to the inmates that spelled out their instructions, so overall a simplification of communications.

Also spoke to him about the timing for the next orientation and he said to submit applications and when there was enough from all the groups (AA, NA, Church groups, etc.) that he would schedule an orientation.

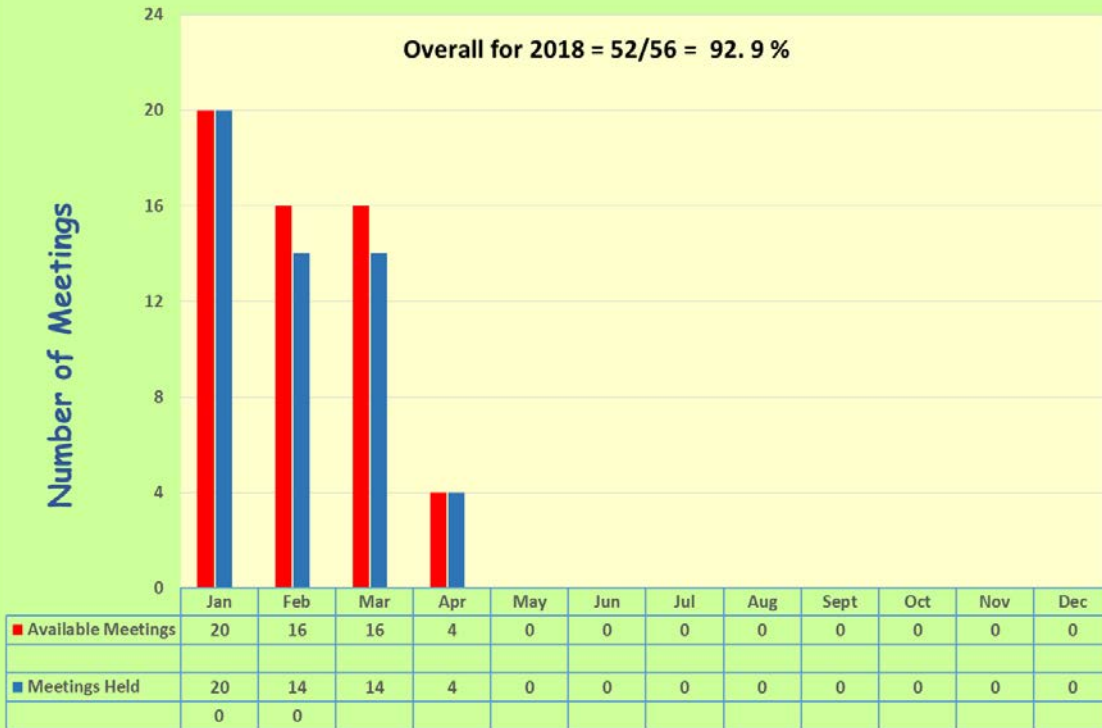

Visited Oregon State Penitentiary with Vera Bonnie and Tim where Vera got input on Conference correction issues. She received valuable on issues and had a good discussion of two current programs, the Correspondence and pre Release Programs

Had 2 no shows at jail meetings since last meeting resulting in 93% of meetings covered. I usually send out reminders but did not that week.

Thanks for letting me be of service

Walt W.
